XPIENT Solutions earns CISP Validation

Charlotte, NC (November 11, 2005) ~ XPIENT Solutions, a leading supplier of point-of-sale, back office and enterprise solutions to the quick service, line service, family dining and fast casual segments has received notification that VISA U.S.A. has accepted XPIENT's CISP Payment Application Validation for its Credit Card Application version 4.0.

Securing this validation confirms XPIENT's compliance with VISA U.S.A.'s Cardholder Information Security Program (CISP) Payment Application Best Practices. The CISP Payment Application Best Practices establishes a set of 13 best practices designed to protect sensitive information from being compromised. These best practices, which also include numerous subset-best practices, are directed to assist software vendors to create secure payment applications that help merchants and service providers comply with CISP. Acknowledgment of xpient's CISP validation further demonstrates xpient's commitment to protecting the confidentiality and integrity of cardholder data and personal data whenever VISA cardholders make purchases from merchants using XPIENT's payment processing application.

About XPIENT Solutions, LLC.

XPIENT Solutions (www.xpient.com) is an organization of highly qualified restaurant and software development specialists devoted to business process improvement and professional support services for the foodservice industry. XPIENT offers a full complement of integrated technologies including Point-of-Sale, Back Office and Enterprise Management. From applications that help efficiently take orders and improve kitchen throughput, to labor management, production prep, inventory control, customer loyalty, speed of service, surveillance enhancement and data management tools, XPIENT's solution suite allows the restaurant operator to better and more easily manage every aspect of their restaurant operations.
